Power Apps

Power Automate

Power BI

C#

SQL Server

PROFESSIONAL EXPERIENCE

PT Gandum Mas Kencana 2023-present

Software Developer

- Maintain and enhance Dynamics AX 2012 solutions and C#/.NET business applications.
- Develop and support AX 2012 customizations in X++ and investigate ERP data issues.
- Built **Sparepart Management v2** with ASP.NET Web API, Dynamics AX 2012 R2 integration, and Flutter.
- Built **AXFinMobile** with ASP.NET Web API and Flutter for financial-journal and claim workflows, reducing manual entry by approximately 60%.

PT Intikom Berlian Mustika 2019-2023

Software Developer / Lead

- Delivered Dynamics 365 Finance and Operations, Dynamics 365 Business Central, Power Platform, X++, AL, and .NET solutions.
- Led a **five-month Dynamics 365 Business Central implementation**.
- Built a **Blazor Server intranet** integrated with Dynamics 365, Power Automate approvals, and SharePoint attachments.
- Delivered **SSIS-based data migration** work for BCA Finance and built a **car-rental calculation application** integrated with Dynamics AX 2012 SOAP services.
- Built a C# API gateway for enterprise integrations, mentored junior developers, and contributed to architecture and code-review decisions.

PT Visionet Data Internasional 2018-2019

Software Developer

- Implemented and customized Dynamics AX 2012 solutions in X++.
- Built custom shipping-order and invoice reports and contributed to ERP implementation and support activities.
